PROFESSIONAL SERIES STAND BLENDER WITH THERMAL CONTROL JAR

4KSB8270

EXCEPTIONAL PERFORMANCE

- THE MOST POWERFUL BLENDER* is the ultimate tool for making healthy, nutritious eating easy. The Pro Line® Series blender's powerful 3.5 Peak HP** motor and patented asymmetric blade provide the most blending power of leading competitors.
- ASYMMETRIC STAINLESS STEEL BLADE blends at four different angles to pull ingredients into the blending vortex for smooth, consistent results. This allows for blending large and tough ingredients, like whole fruits and vegetables.
- EXCLUSIVE THERMAL CONTROL JAR to blend and heat soup in only five minutes, retains hot temperature longer.
- 3 PRE-SET ADAPTI-BLEND™ RECIPE PROGRAMS. Each program (Soup, Smoothie and Juice) a specific result and consistency, creating an ideal blend. Includes self-cleaning cycle.
- PRECISION POWER DIAL offers continuous variable speed from 1-11, for complete control from low to high speeds. Pulse and Boost functions also available to meet your recipe's specific needs.
- UNIQUE FLEX EDGE TAMPER assists with large quantities or ultra-thick blends. The Flex Edge tamper pushes ingredients into the blending vortex and scrapes the sides of the jar so everything is blended evenly. And when finished, it helps get more of the contents out of the jar so there's less waste.
