

## FOR DAILY USE YEAR AFTER YEAR

We all deserve the luxury of preparing food in beautiful cookware – thanks to our Impact series, this is now possible! The series has been designed in an elegant two-tone finish in stainless steel, with an aluminum plate at the bottom which ensures quality and optimum heat distribution.

The Impact series has all of SCANPAN's core features – high quality, functional design, maximum performance – and has been designed for the modern consumer's demand for elegant, durable and user-friendly cookware in absolute top quality!

The kitchen series is made with a 6.4mm thick sandwich base and an aluminum core, giving it a perfect heat-distributing base. The handles on Impact don't get hot, and the inside has useful measurement markers. The specially designed rim has been designed to pour without dripping. The Impact series works on all stove-tops.

- ✓ Danish design
- ✓ Ovenproof up to 260°C/500°F
- ✓ Sturdy 6.4mm sandwich base
- ✓ Inside polished surface of 18/10 stainless steel, which provides better durability
- ✓ Practical measuring units on the inside
- ✓ The rim has been designed to prevent drips when pouring
- ✓ Cast stainless steel handles, which stay cool for longer
- ✓ The series is suitable for all energy sources
